

**Mr Jagdeep Singh Gill**  
**Co-Opted Governor**

I grew up in Southall and lived here until my early 20s, attending Beaconsfield Primary School in the late 80s, and then along with most of my year group, transitioned down the road to Villiers High School. From here, I went to a Sixth Form in Hounslow, followed by 4 years studying for an MEng in Aeronautical Engineering at the University of Cambridge and a further year at Imperial College London, gaining an MSc in Computer Science.

I currently work in the IT sector as a Business Analyst, and have experience across a variety of industries, covering Media, Telecoms, Entertainment and Energy.

I became a Co-Opted Governor in December 2015 with an aspiration to work with the governing body and leadership team to enable Beaconsfield Primary School to continue its impressive track record, and in particular, to be able to leverage my professional background with regards to STEM provision at the School.

Outside of work, I serve as a Trustee of the Panjab Digital Library UK.
