

Mr Jigar Dave
Parent Governor

I have immigrated from India in 2005. Having well blended in British society I felt that I should be giving something back to the community. As a father of two young daughters I was very keen to give them the best values based education possible. So I thought by serving as a governor I will be able to contribute the same to the society as well. So I was elected in 2015. During my term time I would like to do my best for the multi ethnic, multi-cultural school so that all the children can become a good citizen and good human being.
