

**Mr Shahul Hameed Abdul Haleem**  
**Parent Governor**

I am from Sri Lanka. I am a BSc Engineer specialising in Chemical Engineering. I graduated from University of Peradeniya, Sri Lanka and am currently employed by the Scottish Power. I have lived in the UK with my family for the past eight years. My son, Abdullah Hathmi is studying in year 3 and my daughter, Hayaam is studying in the nursery at Beaconsfield Primary School.

I became a Parent Governor in May 2011. I wanted to be a parent governor thinking that I could learn more about school environment, strategies and planning that the school does and to see whether I could contribute to the school and the children.
